PROFESSIONAL SUMMARY

Versatile upcoming developer studying for a bachelor’s in Computer Science, distinguished for collaborative skills and a track record of independently delivering impactful results. Ample experience in full-stack development, delivering well-documented, tested, and operable code. Efficient in collaborating and communicating new ideas and opinions.

TECHNICAL SKILLS

Languages : Python, C/C++, SQL (Postgres, MS-SQL, MySQL), JavaScript, TypeScript, HTML, XML, JSON, CSS
Frameworks : React Native, Node.js, Next.js, ExpressJS, Spring Boot, Angular, TensorFlow
DevOps and API Tools : Git, Docker, Azure DevOps, Octopus Deploy, Postman
Cloud and Security Tools : AWS, Azure Cloud, SQL Server, Linux (Configuring and Managing)
Others : Data Modeling, Design Patterns, Debugging, Root Cause Analysis, Matlab, Unity, Blender

EXPERIENCE

Software Engineering Intern | Cloudflight February 2026 – May 2026
– Collaborated with a team of 5 people, developing a full-stack social platform that enables users to organize the events and activities from any city, track personal reviews, and interact within community-driven spaces, alongside.
– Tech stack: Java, Typescript, Spring, PostgreSQL, OpenAPI, Postman, Docker

EDUCATION

University of Babeş-Bolyai | Bachelor’s Degree in Computer Science and Mathematics October 2024 - June 2027
– Faculty of Mathematics and Computer Science

PROJECTS

Image Processing Application | C/C++ May 2025
– A C++ application for processing and manipulating PGM (Portable Gray Map) images with various operations including brightness/contrast adjustment, gamma correction, convolution filters, and shape drawing capabilities.
Public Parking Monitoring System | Transilvania Digital Innovation Hub April 2026
– Me and my team are creating a simple OCR which aims to help local policemen to automate the process of checking the parking validity of parked vehicles. We paired this OCR with an android app and a database backend and prepared our pitch for the judges.
Realtime Chat App | React + Vite August 2025
– Developed a real-time chat application using Socket.io, Node.js, and React, featuring JWT authentication and MongoDB for message persistence. The app followed a SaaS architecture and it was deployed using Render.

CERTIFICATIONS

Certificate in Advanced English | Cambridge University June 2023
B2 Certificate of Language Proficiency in French | Babeş-Bolyai University June 2026

VOLUNTEERING

Hermes | HR Volunteer October 2024 - Present
